Abhinav

Full-stack developer · Greater Noida, Delhi NCR

yabhinav0011@gmail.com yabhinav.dpdns.org github.com/yabhinav1 linkedin.com/in/yabhinav1

I build software and then keep it running: a Discord bot with 72k+ users, an offline-first memory for field crews, and the productivity app I open every morning.

EXPERIENCE

Founder & Lead Developer, Annie

Aug 2025 to present

An all-in-one Discord bot with 72k+ users across nearly 500 servers, sharded, with a Next.js dashboard of 128 API routes. I lead a small team and own the stack: the gateway shards, the dashboard, the status page, premium billing and the incidents. The memory leak that was glibc's malloc arena, not JavaScript, is written up on the Annie page.

Discord Community Manager, Geek Room

Oct 2026 to present

I run the Discord for Geek Room, a coding community of about 3,000 members, and built the bot that runs it: moderation where every action gets a case number, automod that escalates from warning to ban, Codeforces, LeetCode and CodeChef contest reminders, a daily problem with verified streaks, event RSVPs and a hackathon team finder, all configured from a web dashboard.

PROJECTS

Annie — 2025

All-in-one Discord bot running in 492 servers for 72k+ users

Next.js · React · TypeScript · discord.js · MongoDB · Tailwind

annie.monster

DailyOS — 2026

Personal productivity OS. Eleven modules in one app instead of nine tabs

Next.js · React · TypeScript · Vercel · Cloudflare

dailyos.dpdns.org/login

FieldMind — 2026

Offline-first memory for field technicians. Search in a millisecond, answer from local notes, sync when a link exists

Python · Qdrant Edge · ONNX · SQLite · Docker · Whisper

github.com/yabhinav1/fieldmind

FieldProof — 2026

Field photos in, verified and report-ready evidence out, for NGOs. Top 25 of ~400 teams at Code Cubicle 6.0

Next.js · TypeScript · Cloudinary · Postgres · pgvector · Gemini

fieldproof-kappa.vercel.app · github.com/yabhinav1/fieldproof

The Silent Co-Driver — 2026

Reads driver stress from F1 team radio and lines it up against real lap times — 3rd place, AI Race Month

Python · FastAPI · Hugging Face · Whisper · PyTorch · Chart.js

github.com/yabhinav1/silent-co-driver

Café de' Mercanti — 2026

Concept redesign of an Old Montreal café website. Hand-built UI and UX in plain HTML, CSS and JS

HTML · CSS · JavaScript · UI design · UX design

cafe-de-mercanti.vercel.app · github.com/yabhinav1/cafe-de-mercanti

SKILLS

FRONTEND	Next.js, React, TypeScript, Tailwind CSS, Framer Motion, HTML & CSS, JavaScript, Chart.js
BACKEND	Node.js, Express, Python, FastAPI, MongoDB, SQLite, Turso, discord.js, REST APIs, Hugging Face, Qdrant, pgvector
INFRA & TOOLING	AWS, Oracle Cloud, Vultr, Vercel, Fly.io, Cloudflare, Docker, Linux VPS, DNS & domains, OAuth2, sharding, Git

EDUCATION

Computer Science and Engineering, 1st year · GGSIPU
