I build software and then keep it running: a Discord bot in 490 servers, an offline-first memory for field crews, and the productivity app I open every morning.

EXPERIENCE

Creator and maintainer, Annie — 2025 to present

An all-in-one Discord bot in 490 servers, sharded, with a Next.js dashboard of 128 API routes. I run the whole thing: the gateway shards, the dashboard, the status page, premium billing and the incidents. The memory leak that turned out to be glibc's malloc arena, not JavaScript, is written up on the Annie page.

Hackathon builds — 2026

- **FieldMind**, Qdrant Edge hackathon. Offline-first memory for field technicians, with Team Compilers.
- **FieldProof**, Code Cubicle 2026. Impact media platform for NGOs on Cloudinary.
- **The Silent Co-Driver**, AI Race Month, 3rd place. Driver stress from F1 team radio, built in a day with a team of two.

PROJECTS

Annie — 2026

All-in-one Discord bot running in 490 servers for 71k+ users

`Next.js · React · TypeScript · discord.js · MongoDB · Tailwind`
`annie.monster`

DailyOS — 2026

Personal productivity OS. Eleven modules in one app instead of nine tabs

`Next.js · React · TypeScript · Vercel · Cloudflare`
`dailyos.dpdns.org/login`

FieldMind — 2026

Offline-first memory for field technicians. Search in a millisecond, answer from local notes, sync when a link exists

`Python · Qdrant Edge · ONNX · SQLite · Docker · Whisper`
`github.com/yabhinav1/fieldmind`

FieldProof — 2026

Field photos in, verified and report-ready evidence out. An impact media platform for NGOs, built on Cloudinary

`Next.js · TypeScript · Cloudinary · Postgres · pgvector · Gemini`
`fieldproof-kappa.vercel.app · github.com/yabhinav1/fieldproof`

The Silent Co-Driver — 2026

Reads driver stress from F1 team radio and lines it up against real lap times — 3rd place, AI Race Month

`Python · FastAPI · Hugging Face · Whisper · PyTorch · Chart.js`
`github.com/yabhinav1/silent-co-driver`

Café de' Mercanti — 2026

Concept redesign of an Old Montreal café website. Hand-built UI and UX in plain HTML, CSS and JS

`HTML · CSS · JavaScript · UI design · UX design`
`cafe-de-mercanti.vercel.app · github.com/yabhinav1/cafe-de-mercanti`

SKILLS

FRONTEND	Next.js, React, TypeScript, Tailwind CSS, Framer Motion, HTML & CSS, JavaScript, Chart.js
BACKEND	Node.js, Express, Python, FastAPI, MongoDB, SQLite, Turso, discord.js, REST APIs, Hugging Face, Qdrant, pgvector
INFRA & TOOLING	AWS, Oracle Cloud, Vultr, Vercel, Fly.io, Cloudflare, Docker, Linux VPS, DNS & domains, OAuth2, sharding, Git

EDUCATION

Computer Science and Engineering, 1st year · GGSIPU
